In the World Between, where the Lands Between meet the Lands Above, there exists a vast world beyond the reach of the living. It is a world of magic and myth that once connected Heaven and Hell. People believed that the only reason people did not live in this world is because they were trying to escape it. But is that really the reason? It is said that the first Elden Lord once held dominion over that world. People are still talking about the mystery of that world. At that time, the Earth was dark. The four Gods protected the World Below. Some people still say that the Gods have given the power of the Elden Ring to certain people. And once a certain Lord prevailed, it seemed that Heaven and Hell were fused together. And in time, the World Below was brought into the World Above. Did the Gods truly give the power of the Elden Ring to that first Lord? It may be possible to discover the true identities of both Gods and the lore, and the mystery surrounding them, in the World Between. Become a Noble of the Elden Ring in the Lands Between!
