Assistant.Q: Creating a Google login url in Rails? I'm working on a rails app and want to add a personal access token to each new user but for each user I need to generate a unique url that says And store it in a database table. What is a good and flexible way of doing this? Thank you. A: You have a few options - you can do it through an

API, you could just store the values in a database and then create a URL directly with your access token, or you could look into the new Google+ API. Q: Duplicate image previews for a product on Amazon This is a very bizarre bug for which I have been Googling myself blind. I am trying to set up a simple Amazon local store, and have just finished the

'products' page. Everything is there, and 6d1f23a050
